In view of applicants' response filed 9/7/04 the following still applies.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim 11 is rejected under 35 U.S.C. 102(b) as being anticipated by Cossement for reasons given in previous action.

Applicants' traverse is unpersuasive for more than one reason. First, there remains no purity limitation so the claim language reads at the very least on the prior art racemate, ceterizine, *per se*. Note In re Adamson 125 USPQ 233.

Additionally, there is a description to resolve the racemate into its stereoisomers which constitutes a description for the instant levo isomer's use as well. One reading Cossement would include **all** forms of cetirizine as having the uses disclosed on p.1 since the reference is directed to better ways of preparing cetirizine and its 2 isomers. One looks to higher yielding processes for making useful (not useless) products which is how applicants' own specification synopsizes the Cossement (commonly owned with common inventors) reference.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
